Caricature Inc.

THREE CARTOONISTS WHO DRAW THE CROWDS

Plonk a cartoonist in front of an empty seat and pretty soon there is a queue of smiling faces eager to sit for a caricature of themselves. Add a second or third caricaturist and suddenly you have a sideshow of quick-fire fun and laughter. And a lot of very happy 'victims' walk away with an original work of art to hang in their hallway.

Adding **CARICATURE INC.** to your event, be it a corporate function, arts festival or special celebration, adds something unique - the spectacle of a likeness magically appearing from a blank sheet of paper, the good natured banter between the crowd, sitter and cartoonist, and the burst of laughter that greets the final drawing. Your guests, visitors or audience will further have the joy of walking away with something that will forever remind them of the great time they had at your event.

CARICATURE INC. is three cartoonists with distinctly different styles and an overlapping sense of good humour. Wyatt, Dredge and Brick are professional cartoonists, each at the top of their game. Brought together they become a performance and an artistic tour de force, skilled at drawing the crowds, happy to reveal the tricks of the trade, and game for anything that can be put on paper.

Toon Workshops

Cartooning is an immediate, personal and hugely enjoyable art form for young and old to explore. Requiring only pen, paper and a little imagination, cartooning workshops reap returns far in excess of their outlay.

For some students it is simply a fun time where they learn to draw like Disney. For others it is a chance to express themselves in a way never before considered, often through stories and comics.

Wyatt, Dredge and Brick have a wealth of workshop experience with all age groups and abilities. Clients have included local authorities, education establishments, book and arts festivals, and corporate clients.
